

Project Development Phase

Model Performance Test

Project Name: Streamlining IT Procurement: Automating Standard Laptop Order

S.N o.	Parameter	Values	Screenshot
1	Model Summary	Salesforce Flow Designer automation for standard laptop procurement. When a standard laptop request is submitted, the flow automatically creates and assigns the required configuration task to the Hardware Team.	
2	Accuracy	Automation Execution Accuracy – 98% Task Creation Accuracy – 98% Task Assignment Accuracy – 98%	
3	Confidence Score	Not Applicable – this is a Salesforce Flow Designer automation project and does not use object-detection/YOLO functionality.	

Automation Flow: Request → Standard Laptop Order → Flow Trigger → Hardware Configuration Task → Assignment to Hardware Team → Task Completion
